The Law Enforcement Mental Health Liaisons (MHL) respond with law enforcement to calls for service involving a potential mental health issue such as “Welfare Check” calls. The Liaisons provide consultation, training, crisis assessment, crisis intervention, suicide risk assessment, and mental health disposition planning for individuals with mental health issues that come to the attention of law enforcement. The Liaisons provide consultation to patrol and investigations regarding mental health involved situations and cases and assist with mental health training of law enforcement personnel. The Santa Cruz Sheriff’s Office has 2 full-time liaisons for coverage 6 days per week.
ICAT is a use of force training curriculum which trains officers in how to respond to volatile situations in which subjects are behaving erratically and often dangerously, but do not possess a firearm. Reducing the need to use deadly force, upholding the sanctity of life, building community trust, and protecting officers from physical, emotional, and legal harm are the cornerstones of ICAT.

In March of 2017 Sheriff Hart sent five members of the Sheriff’s Office training unit to New York to observe the New York Police Department’s (NYPD) Emergency Services Unit (ESU) train in ICAT. The Sheriff’s Office then developed scenario-based training to incorporate the ICAT model into its use of force training platform. This ICAT model has improved our abilities to safely and professionally resolve critical incidents.

Since May 2017 the Sheriff’s Office has conducted over 40 hours of training dedicated specifically to the ICAT model. We believe this training has provided deputies with the skills, knowledge, and confidence they need to assess and manage threats, influence behavioral change, and gain voluntary compliance whenever possible in dynamic and dangerous situations.

SERVING OUR COMMUNITIES WITH PRIDE AND PASSION
The Sheriff’s Corrections Bureau is committed to protect the public by providing a safe and secure environment to persons committed to the custody of the Sheriff. The Bureau is responsible for maintaining secure jail facilities and implementing innovative corrections solutions by using alternatives to sentencing and incarceration including work release, electronic monitoring and community service.

The Sheriff’s Corrections Bureau maintains and is responsible for three adult jail facilities: The Main Jail on Water Street, the Blaine Street Women’s facility and the Rountree Jail Men’s Facility in Watsonville. The bureau provides inmate services including medical care, food, laundry and educational programs to help inmates successfully re-enter society.

The mission of the Corrections Bureau is to protect the public by providing safe and secure custody of inmates and preparing them for successful community re-entry to reduce recidivism.
The year 2017 marked significant growth and development with the merging of Inmate Programs, with the Custody Alternatives Program (CAP) and Work Release Program to form the Division of Re-Entry (DOR). The DOR team is made up of 6 officers and 6 civilian staff who are skilled, trained and committed to providing structure, support and services to inmates to improve outcomes upon release. A major focus of 2017 was the design and development of the programming and reentry plan for Rountree and Blaine St. and the new Rehabilitation and Re-Entry facility that is set to come online in 2018.

There were a total of 65 activities, programs and services available to inmates throughout the bureau amounting to over 170 total classes offered between the facilities each week. Over 450 volunteers and program staff from over 50 justice system partners offered these programs in both English and Spanish.
FOOD SERVICES AWARD

During 2017, the Jail Food Services Team was recognized as a “Clean Ocean Business” by the City of Santa Cruz. This award was based on inspections by the City of Santa Cruz. They found our facilities to be in compliance with best practices for food service facilities. The kitchen team should also be recognized for their daily commitment to serving high-quality meals to our inmate population and staff.

RECOVERY CENTER

The end of 2017 marked the final year of the Justice Assistance Grant (JAG), which was awarded to the Sheriff’s Office in 2015 for funding the Sheriff’s Office Recovery Center in partnership with Janus of Santa Cruz. Since inception, the Sheriff’s Office Recovery Center has served over 984 individuals in 1,729 total episodes of intoxication.

Sheriff Jim Hart had the idea for the center while managing the Corrections Bureau from 2011 through 2013. The Sheriff had observed hundreds of bookings each month for public intoxication that came into the jail. These bookings utilized vast resources and brought a large amount of medical exposure to the county for an offense that is not typically treated as a crime in our justice system. He believed if public intoxication arrests were viewed as a medical issue rather than a criminal justice issue, we could save time, money and jail space, while also better serving the people who were experiencing an alcohol related crisis. Additionally, by using the Center, law enforcement officers are saving time. The typical drop off time at the Center is about 7 minutes, while booking a person into county jail takes about 50 minutes. This has resulted in more deputies on the street to respond to calls and deter crime.
ROUNTREE FACILITY UPDATE

The Sheriff’s Office is near completion on the construction of the 64 bed men’s Rehabilitation and Re-Entry facility on the Rountree Correctional Facility campus. The remodeled wings of the former Rountree “farm” facility created a housing area for up to 64 men, a variety of classrooms, group counseling rooms, designated computer room, and three vocational rooms where the inmates will be provided hands on Career Technical Education training to prepare them for employment success upon release. The Rehabilitation and Re-Entry facility also includes an outside recreation area that contains a circuit course, full soccer field and raised-bed gardens. In addition to a new administration and reception area, a new visitation building, and children’s play structure were constructed to facilitate contact visits with children and to enhance family reunification. The grand opening of the Rehabilitation and Re-Entry facility is scheduled for May 2018.
COURT SECURITY

The Sheriff’s Office provides security services to the Superior Court of Santa Cruz County at all sites where judicial proceedings occur. Deputies serve as court bailiffs, maintaining safety and order in the courtroom, management of prisoners and arrest of persons remanded into custody by a judge. During 2017, deputies transported almost 10,000 inmates from correctional facilities to court rooms within the county. They also responded to disturbances, security breaches and investigated threats against judges or other court personnel.

Personnel assigned to the court entrance conduct security searches of persons entering the courts to prevent the introduction of weapons. Security screening methods include, visual search, walk-through metal detectors, x-ray scanners, hand-held metal detectors, card-key control systems, and video camera/monitor systems.

BODY WORN CAMERAS

The Sheriff’s Office continues the commitment to transparency by issuing Body Worn Cameras (BWC) to all deputies assigned to Court Security. The Sheriff’s Office worked closely with our judicial partners on a policy for BWC implementation to ensure privacy for those participating in court proceedings. The use of the BWC provides video and audio evidence for critical incidents, use of force, criminal and administrative investigations.
SHERIFF’S OFFICE SERVICE CENTERS

This year marked 20 years of community policing in Santa Cruz County started by then Sheriff Mark Tracy. Honoring a commitment Sheriff Jim Hart made during his campaign to public safety and increased outreach, the Sheriff’s Office opened the North Coast Service Center in Davenport on May 3, 2017 and the Boulder Creek Service Center on August 9, 2017.

These new resources will bring a host of convenient resources including faster delivery of Sheriff’s Office services and programs such as crime preventative home and business inspections, child safety and workplace violence education seminars, vacation checks, theft, and alcohol related crimes and issues on the beaches.
