Santa Cruz County Sheriff's Office
PREA- Prison Rape Elimination Act
Expanded Course Outline
2 Hours

| | |
|---|---|
| <u>Course Title:</u> | PREA |
| <u>Course Goal:</u> | This course is presented by Correctional Officers who have attended the NCTI PREA Facilitators course. The curriculum is designed to ensure that staff who may have contact with inmates receive office approved training on the prevention and detection of sexual abuse & sexual misconduct. The course utilizes lecture, small group work, and group discussion. Staff will also learn how to report PREA allegations, what signs to look for to prevent PREA incidents, and the laws as they relate to sexual misconduct. |
| <u>Audience:</u> | Santa Cruz County Sheriff's Office Correctional Officers |
| <u>Core Competencies:</u> | At the conclusion of this course, trainees will be able to a) define what sexual misconduct is, b) demonstrate their knowledge of the reporting process, c) demonstrate their understanding of the conflicting roles they take on in a jail setting as well as the dangers, d) demonstrate their knowledge of the impact of sexual misconduct on our profession. |
| <u>Date</u> | 5/28/21 & 6/1/2021 |
| <u>Total Hours of Instruction:</u> | 2 Hours |
| <u>Location:</u> | 5200 Soquel Avenue, Santa Cruz, CA 95060 |
| <u>Instructors:</u> | CDO Mora & CO Gallegos |
| <u>Primary Instructor</u> | CDO Mora |

 1. **Case Study #1:**
 2. **Case Study #2:**
 3. **Case Study #3:**

- VI. Questions

SANTA CRUZ COUNTY SHERIFF'S OFFICE

TASER X2 CONDUCTED ELECTRICAL WEAPON

ANNUAL RECERTIFICATION COURSE

Correctional Officer Training Spring 2021.

Head Instructors: Deputies Dan Cruz and Sami Medina

Other instructors: Sgt J. Simpson, Sgt Savage, Deputies Engelhardt, A. Solano, Giguere and officer Rania.

Course Objective

To provide the basic operational theory and practical training to reasonably, safely and effectively operate the TASER X2 CEW. This course is only for deputies who have previously completed the TASER X2 New User Certification Course.

Upon completion of this course, deputies will be able to:

1. Understand Sheriff's Policy regarding TASER usage.
2. Understand the technology associated with the TASER X2
3. Understand the nomenclature of the TASER X2 and smart cartridges
4. Understand TASER use considerations
5. Understand Tactical considerations associated with CEW use
6. Demonstrate safe handling and effective deploying of the TASER X2

To complete this training deputies must:

1. Receive the current Annual CEW Update PowerPoint Presentation and any new Training Bulletins after its release date, including discussion of items in the instructor notes, drills and functional demonstrations.
2. Receive and review current Taser product warnings
3. Pass functional test
4. Deploy 2 Taser live cartridges into preferred target zones

Course Outline

Introduction

- A: Orientation
- B. Instructor Introductions
- C. Class outline

Safety Plan

- A: Location of medical facilities
- B. Transportation methods (patrol car vs ambulance depending on severity of injury)
- C. Identification of safety officer
- D. Rules of Safety and Conduct
 - 1. All weapons are to be unloaded
 - 2. Safety inspections prior to beginning drills/scenario's
 - 3. Only SIM guns and TASERS provided by Taser Instruction Team are to be used
 - 4. Scenarios are to be treated as real situations with absolutely no "horse play"
 - 5. Reporting of injuries if necessary

Policy and Procedure Review

- A. Use of Force Policy
- B. Taser Policy

Legal/Ethical Considerations

- A. Case Law -Graham vs Connor, Mattos vs Agarano
- B. Penal Code 835
- C. Reasonable Force
- D. Excessive Force

Classroom Instruction (Power Point Version 22)

- A. Review and acknowledgement of TASER product warnings
- B. Review of disclaimers
- C. Overview of CEW technology
- D. Nervous System Types
- E. Neuro Muscular Incapacitation (NMI)
- F. Safety Considerations/Danger Signs
- G. Avoiding Dangerous Falls
- H. Avoid Flammables and Explosives
- I. Use Preferred Target Zones
- J. Restrain under power-avoiding prolonged exposures (15 second rule)
- K. Caution with Sensitive Populations
- L. Taser X2 Nomenclature, PPM, cartridge types/loading
- M. Trigger operation, probe spread, cross connect, distance considerations
- N. Water exposure
- O. Probe Placement, Preferred Target Zones
- P. Increased Deployment Risks
- Q. Limited/Ineffective usages, contingencies
- R. Post Incident Review
- S. Medical treatment
- T. Evidence collection
- U. Downloads

Tactical Considerations

- A. Solo officer vs. having a partner
- B. Other force options on scene, creation of a plan if possible
- C. Tactical approach, concealment and/or cover

- D. Display/Arc for purpose of compliance, clear simple voice commands
- E. Determination of preferred target zones based on situation
- F. Suspects environmental concerns- dangerous falls, water, flammable liquids
- H. Obvious medical issues or sensitive persons
- G. Pre firing warning (Taser, Taser, Taser)
- I. Deployment-look for reaction/sounds
- J. Follow-up action as needed: reenergized, second cartridge, drive stun
- K. Take suspect into custody while under power
- L. Monitor Medical condition, request medical personnel
- M. Clearance at hospital
- N. Notify jail staff of CEW exposure

Evidence Collection

- A. Current procedure
- B. Collection of all parts to remain intact
- C. Photographs of probe placement injuries
- D. Photograph of any secondary injuries

Report Writing Considerations

- A. De-escalation attempts
- B. Reason for application related to policy
- C. Whether verbal warning was issued
- D. Targeted zones
- E. Number of applications and justification
- F. Identification of witnesses
- G. Medical care provided
- H. Observations of subjects physical and physiological state
- I. Any known or suspected intoxication or medical issues.

TASER X2 CEW Training

Drills and Applications

Minimum of Five repetitions for each drill. All drills will be done under the supervision of a TASER Instructor. The drills will be continued until Instructor is satisfied with competency.

Drills

- A. Drawing
- B. Warning Arc
- C. Aiming
- D. Threat
- E. Re-energize
- F. Ineffective Deployment

Applications

Officers will complete and show proficiency in drawing, arming, aiming and transitioning to other weapon platforms. Officers will understand canting to target suspect lying on the ground, three-point contacts and drive stuns.

TASER X2 Deployment

Scenario

Officer will encounter an agitated inmate who will display signs of aggression and violence. Officers will attempt to deescalate situation and make a decision whether or not to deploy the CEW. Concepts of cover, distance, and de-escalation will be covered. After scenario, user will be evaluated by TASER Instructor.

If officer only fires one cartridge, then a second will be fired from 8 feet at connective target with focus on target acquisition and verbal commands.

Class Wrap-up

ALL TRAINING WILL BE CONDUCTED IN ACCORDANCE WITH AXON REQUIREMENTS AND STANDARDS. ALL WARNINGS AND TESTS WILL BE OBTAINED FROM AXON PRIOR TO THE TRAINING. THE POWER POINT WILL BE THE MOST CURRENT PROVIDED BY AXON. ALL INSTRUCTORS ARE CURRENTLY CERTIFIED BY AXON.
